Thank you for choosing Hearing Doctors of NJ for your hearing and balance healthcare needs. We are committed to you and your improved hearing and balance. We also want your experience with us to be a positive and productive one. To that end, we want to take this opportunity to inform our patients and their families of our payment policies. This knowledge will help you be better prepared for your appointment.

Hearing Doctors of NJ is only an in network provider with Horizon NJ Health. We are an out of network provider with all other insurance plans.

Insurance coverage is an agreement between you and your insurance carrier. It is your responsibility to determine whether or not you have out-of-network benefits, if you require prior authorization or a referral prior to services being provided, or if audiology services and/or hearing aids are covered through your plan. It is important to gather this information prior to your appointment with us. Hearing Doctors of NJ cannot submit a claim to any insurance carrier we are out of network with. Upon payment in full for services rendered, you will receive a paid in full invoice that you can submit to your insurance carrier for reimbursement.

It is very important that you inform us within 24 hours of your appointment if you need to cancel or reschedule. While we realize that emergencies do occur, Hearing Doctors of NJ reserves the right to charge a \$50 cancellation fee for all no-show appointments or appointments canceled with less than a 24 hour notice.

We understand that sometimes you may be running late to your appointment. Unfortunately, we have patients scheduled throughout the day and may not be able to see you if you arrive more than 15 minutes after your scheduled appointment time. We will try to accommodate you, if time allows. Otherwise, we will need for you come back later in the day, if a later appointment is available, or reschedule to another date and time.

Payment in-full is due at the time the services are provided. All hearing aid related charges must be paid on the date you take possession of the aid, accessory, or supply.

Hearing Doctors of NJ accepts payment in the form of cash, checks, American Express, Visa, MasterCard, and Discover credit card. We also offers a third-party credit program through CareCredit and Healthi Plan. There will be a \$50 fee for all bounced or returned checks.

It is also the policy of Hearing Doctors of NJ that we may maintain a credit card number on file. This allows us to bill you for an outstanding balance that is not collected within 90 days of the date you were initially billed, while continuing to provide you with care. We will not bill any charge to your credit card without first informing you of this in writing. You then have the right to use an alternate form of payment, if you so choose.

It is important that each patient accepts and meets their financial obligations to this practice. Otherwise, we will be unable to provide care to any of our patients. Hearing Doctors of NJ reserves the right, following 90 days of the initial invoice date, to forward all outstanding balances to either a third-party collection agency and/or small claims court. We also reserve the right to discontinue care or service to patients who have not met their financial obligations to us.

I understand if I have an unpaid balance to Hearing Doctors of NJ and do not make satisfactory payment arrangements, my account may be placed with an external collection agency. I will be responsible for reimbursement of any fees from the collection agency, including all costs and expenses incurred collecting my account, and possibly including reasonable attorney's fees if so incurred during collection efforts.

In order for Hearing Doctors of NJ or their designated external collection agency to service my account, and where not prohibited by applicable law, I agree that Hearing Doctors of NJ and the designated external collection agency are authorized to (i) contact me by telephone at the telephone number(s) I am providing, including wireless telephone numbers, which could result in charges to me, (ii) contact me by sending text messages (message and data rates may apply) or emails, using any email address I provide and (iii) methods of contact may include using pre-recorded/artificial voice message and/or use of an automatic dialing device, as applicable.

Estimates are not a guarantee of final billed services. We do our best to provide the most accurate quote with the given information we have at the time the estimate is generated. Estimates may change and this is not a contract, just an estimate to help you prepare for your services at the time of the visit.

The Good Faith Estimate does not include any unknown or unexpected costs that may arise during treatment. You could be charged more if special circumstances occur. Questions for Parent to Answer

Try the following situations with your child or recall how your child has responded under these various situations. Everyone has some difficulty hearing clearly and understanding in some situations. Choose the level on the Understand-O-Meter you think describes your child's abilities most closely and place this number in the blank at the end of each question. This can be very difficult but try to estimate the child's listening abilities as best you can.

Has this child repeated a grade, had frequent absences or experienced health problems (including ear infections and colds)? Has the student received, or is he/she now receiving, special services? Does the child have any other health problems that may be pertinent to his/her educational functioning?

The S.I.F.T.E.R. is a SCREENING TOOL ONLY

Any student failing this screening in a content area as determined on the scoring grid below should be considered for further assessment, depending on his/her individual needs as per school district criteria. For example, failing in the Academics area suggests an educational assessment, in the Communication area a speech-language assessment, and in the School Behavior area an assessment by a psychologist or a social worker. Failing in the Attention and/or Class Participation area in combination with other areas may suggest an evaluation by an educational audiologist. Children placed in the marginal area are at risk for failing and should be monitored or considered for assessment depending upon additional information.

SCORING

Sum the responses to the three questions in each content area and record in the appropriate box on the reverse side and under Total Score below. Place an **X** on the number that corresponds most closely with the content area score (e.g., if a teacher circled 3, 4 and 2 for the questions in the Academics area, an X would be placed on the number 9 across from the Academics content area). Connect the **X**'s to make a profile.

CONTENT AREA	TOTAL SCORE	PASS						MARGINAL		FAIL				
ACADEMICS		15	14	13	12	11	10	9	8	7	6	5	4	3
